

13.8VDC 3A Power Supply TT-203B

Main power supply unit with 3A/12VDC output, installed inside metal enclosure with space for standard 7Ah/12V battery. Electronic circuit controls charging current and protects against total discharging in case of 230VAC supply failure. The power supply unit is resistant to long-term overload and output supply short-circuit.

Specifications

Dimensions

Model No.	TT-203B
Dimension	195*225*83 mm
Weight	1.36kg
AC Supply	100-240 VAC @ 50-60Hz
Output Voltage	13.8 VDC
Nominal current and Power	3A / 36W
Charge current	1A
LED indicators	AC input/ DC output/ charge/ battery low voltage
Recommended Battery	1 x 7Ah
