

Servo Motor High Speed Bending Arm Barrier Gate

TT-BG-301BS

Overview

-  Cost Effective
-  High Precision, Fast Efficiency, Anti-Collision Protection Function
-  Large Torque, Low Noise & Servo Motor Constant Speed
-  Waterproof Shell Design Grade IP55
-  More than 10 Million Operation Lifetime

018-3366566

Technical Specifications

Parameters	Description
Size	342*334*930mm
Power Supply	DC24V
Open/close Speed	0.9s to 8s (Depending on arm length)
Working Temperature	-45°C~85°C
Motor Power	200W
Motor No-load Speed	3000rpm
Humidity	≤90%
Remote Control Distance	≤100m(open,sunny weather)
Protection Grade	IP55
Max Boom Length	6M
